

## Sprint 2 Report- Ripple

11/5/2017

### **Actions to Stop Doing:**

- Rather than spending a lot of time learning new technologies, begin implementation earlier and learn only what you need.

### **Actions to Start Doing:**

- Remember to factor in other classes/obligations when picking story points for each task.
- Spend more time creating and finalizing the design aspects before the coding process.
- Focus on task at hand, add more tasks if needed it want to work on something else.

### **Actions to Keep Doing:**

- Continue to follow Scrum development process
- Continue to communicate with team to ensure shared vision.

### **Work Completed:**

- Learned React and finished converting all pages to React
- Finished Login and Signup (front end and back end)
- Researching and finishing rating system/page
- Linked front/backend for officials overview page
- Implemented US map on the officials overview page

### **Work Not Completed:**

- Did not link front/backend for Login and Signup or bill/feed layout pages (blocked).
- Individual officials profiles.

### **Work Completion Rate:**
