

Working Prototype Known Problems Report- ripple

- **Item:** The Feed layout still has a divider underneath the last bill
Input/Action: None
Location: feed.js, bill.css
Possible Remedy: Make it so that if it is the last bill, use different css with no line underneath
- **Item:** The official map keeps moving despite not changing the CSS
Input/Action: None
Location: official.js, map.css
Possible Remedy: Unknown
- **Item:** The user is unable to enter a null value in the Search Bar
Input/Action: Entering null value in Search Bar
Location: billSearch.js, searchFeed.js, searchFeedMember.js, memberSearch.js, server.js
Possible Remedy: When query is handed to the backend, return something else if query is null
- **Item:** There is no anchor point for the bill feed page after clicking the “Details” hyperlink
Input/Action: None
Location: feed.js, bill.js, bill.css
Possible Remedy: Unknown
- **Item:** There is no back page functionality (i.e. the user cannot go back to the specific members page after submitting a rating)
Input/Action: Clicking the “back” button of the browser
Location: client (my-app) folder
Possible Remedy: Instead of rendering pages, load new pages.
- **Item:** Certain official’s have a distorted photo
Input/Action: None
Location: officials.js
Possible Remedy: Unknown
- **Item:** The Search Bar disappears after performing a search (since it renders a different page)
Input/Action: Entering a search
Location: billSearch.js, searchFeed.js, searchFeedMember.js, memberSearch.js
Possible Remedy: Re-render search page with bar at the top and results underneath.
